Joe Milani briefly commented that the electric and gas easements might be able to be relocated which would allow for additional design modifications. Preliminary cost estimations for our “short list” options B, C, E, J and K were reviewed. Public information sessions are ongoing, and designs and cost estimations will continue to be refined.

It is estimated that a “phased renovation” will take approximately 7+ years to complete and a “new” building will take approximately 4+ years to complete. Parking location, distance of the building from the street, and accessibility to the gym and auditorium spaces will be reviewed again as the SBC narrows their selections further.

## **Attleboro High School Concession Stand**

The report from Barry LaCasse was tabled.
