

**Attleboro Community
Electricity Aggregation**

10.470 c/kWh

**Attleboro Standard
(through December 2023)**

National Grid

33.891 c/kWh

**National Grid Basic Service rate for Residential customers November 2022 - April 2023.
Future savings cannot be guaranteed because National Grid rates beyond April 2023 are unknown.**

Most Attleboro Residents Unaffected by National Grid Winter Rate Increase

Attleboro residents and businesses enrolled in the Attleboro Community Electricity Aggregation (CEA) Program will not be impacted by the rate hike recently announced by National Grid. Attleboro Community Electricity Aggregation offers electricity rates that are fixed and will not change through December 2023. The vast majority of Attleboro households already participate in the Attleboro CEA Program.

Attleboro residents and businesses may confirm that they are enrolled in the Attleboro Community Electricity Aggregation Program by looking at the Supply Services Section of a recent National Grid electric bill. If it says "Supplier: Constellation NewEnergy (Attleboro Agg)", then that account is enrolled. If it says something else, such as Basic Service Fixed, or names a supplier other than Constellation, then that account(s) is not enrolled.

If you are not a current participant in the Program, you may go to masscea.com/attleboro/ to enroll today!
