

THE CITY OF ATTLEBORO IS SEEKING QUOTES FOR AN OSCILLOSCOPE WHICH HAS BEEN DECLARED SURPLUS EQUIPMENT AND IS AVAILABLE FOR SALE AT THE WATER DEPARTMENT LOCATED AT 1296 WEST STREET

The oscilloscope was purchased when the plant was set up in the 1990's. It is, however, in like new condition, as if it was rarely, if ever, used after its initial installation.

The list of surplus items is as follows:

- Tektronix TAS 465 Two Channel 100 MHz, analog oscilloscope, serial number B013751
- Tektronix K212 Instrument Stand
- All manuals, instruction booklets, and other literature that was originally included with the oscilloscope
- Assorted probes and probe tips compatible with the oscilloscope

The surplus supplies will be awarded to the responsive person/company offering the highest price for the items described on this listing sheet. The City of Attleboro reserves the right to reject any and all offers and to dispose of the items through a negotiated sale, provided that the negotiated sale price is higher than the highest offer received from a responsive person/company.

CONTACT INFORMATION: Questions regarding the surplus items available should be directed to Kourtney Wunschel, Assistant Superintendent of Water at 774-203-1850.

Quotes must be mailed, emailed or faxed to Purchasing no later than 4:00 pm on Tuesday, August 31, 2010.
