RE: MECHANIC STREET

Dear Resident,

Beginning in the later part of the month of June, the City of Attleboro will begin installing new sidewalks, along Mechanic Street from Dennis Street to Third Street utilizing State Chapter 90 funds.

The sidewalk construction will take place over several weeks, and the construction is weather dependent. The first phase of construction will include preparation and installation of new granite curbing. Next, concrete sidewalks will be poured and finished. The final phase of the sidewalk construction will include repair of driveways. Public Works crews and our contractor will work with each resident to try and minimize the disruption caused by the construction.

Additionally, residents will need to remove any personal property (plantings, fencing, etc.) located in the City Right of Way, before new sidewalk construction can begin. The City will require an additional six feet (6') of City Right of Way, where new sidewalks are to be installed, to be cleared of residents personal property.

We recognize that roadway construction may also bring dust and noise. Please accept our advance apologies for any inconvenience caused. Your patience is very much appreciated. If you have any questions, or need more information, please contact me at 508-223-2222, ext. 3154 or by e-mail at dpwsupervisor@cityofattleboro.us.

Respectfully,

Michael R. Tyler
